

SHARDANA

DEFENCE SOLUTIONS

Soldier Systems | Equipment Integration | Product Development

PEOPLE.
EQUIPMENT.
MISSIONS.
TOGETHER.

FROM REAL USER NEEDS TO MISSION-READY CAPABILITY.

SHARDANA connects operational experience, technical development and industry execution. We translate real user needs into clear requirements, integrated equipment and fieldable solutions.

CORE CAPABILITIES

01

USER NEEDS & REQUIREMENTS

Translate operational needs into clear, testable inputs.

02

SYSTEMS INTEGRATION

Integrate people, equipment and platforms.

03

CONCEPT DEVELOPMENT

Turn mission needs into practical solution concepts.

04

PROTOTYPING

Develop and iterate field-oriented solutions.

05

USER TRIALS & EVALUATION

Identify gaps through structured operational feedback.

06

SMALL-BATCH PRODUCTION

Bridge proven design and initial deployment.

FIELD-PROVEN
PERSPECTIVE.
MISSION-READY
SOLUTIONS.

HOW WE WORK

1 USER NEED

2 REQUIREMENT

3 CONCEPT

4 PROTOTYPE

5 USER TRIAL

6 OPTIMISE

7 FIELDABLE

HOW WE SUPPORT PARTNERS

DEFENCE ORGANISATIONS

- Operational need analysis
- Requirement and gap reviews
- User trials and evaluation

CONSULTANCIES

- Soldier Systems SME support
- Capture and bid contribution
- Independent technical insight

MANUFACTURERS

- End-user translation
- Integration and prototyping
- Feedback-driven iteration

WHY SHARDANA

- Operational military background and direct end-user perspective
- Experience across Soldier Systems, Land Systems and tactical equipment
- Lean independent support with short decision and feedback loops

TURNING OPERATIONAL NEED INTO FIELDABLE CAPABILITY.
